

LOVELY PROFESSIONAL UNIVERSITY

Academic Task No. 3

School: SCA

Faculty of: LFTS

Course Title: PROGRAMMING IN JAVA

Course Code: CAP615

Max. Marks: 30 [10 Marks each]

Date of Allotment: 26th April. 2022

Last Date of Submission: 01st May. 2022

Important Guidelines:

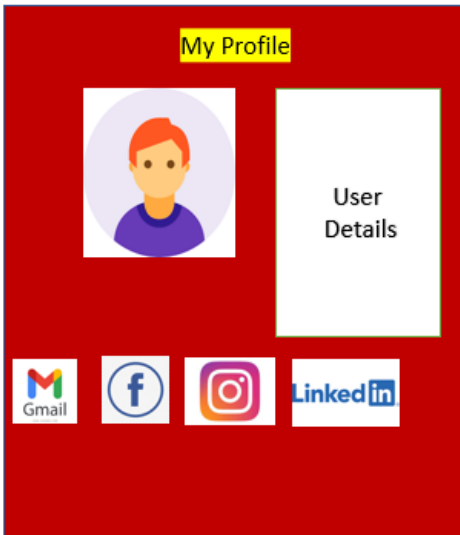

1. All questions in this Academic Task are compulsory.
2. Every attempted sheet/page should carry clear details of student such as Name, Registration number, Roll number, Question number and Page number. The page numbers should be written clearly on the bottom of every attempted sheet in a prescribed format as: for page 1; **Page 1 of 4**, for page 2; **Page 2 of 4**, for page **Page 3 of 4** and for page 4; **Page 4 of 4**, in case your assignment/document is of 4 pages.
3. After attempting the answer(s), student needs to take photograph of each of these answer sheets/pages and needs to convert the **jpeg** format images into a sequential single **pdf** format document (can be done with many free online available converters).
4. This PDF file should be uploaded onto the UMS interface on or before the last date of the submission.
5. Refrain from indulging into plagiarism as copy cases will be marked zero
6. For every program it is mandatory to give proper documentation.

SET-1

Q1. Write a program to create a following GUI application using database connectivity.

Id	First Name	Last Name
16	u2	u2
17	u3	u3
18	u4	u4
19	test	inTest
20	newnew	skoooo
21	in	in
22	in2	in2
23	std1	stdn1

Q2. Write a program to create a following GUI application using Swing components.

Q3. Write a program to create GUI App: Employee Registration page in which you have to take input like: Employee name, Password, Date of birth, Gender, Contact No, Address etc.

SET-2

Q1. Write a java program that simulates a traffic light. The program lets the user select one of three lights: red, yellow, or green with radio buttons. On selecting a button, an appropriate message with “stop” or “ready” or “go” should appear above the buttons in a selected color. Initially there is no message shown.

Q2. Write a program to create a following GUI application “Talk to Me” using Swing components which shows some questionnaires.

Talk to Me				
How are we doing?	Excellent	Good	Fair	Poor
See me promptly	☒	☐	☐	☐
Listen and explain	☒	☐	☐	☐
Treat me kindly	☒	☐	☐	☐
Well organised	☒	☐	☐	☐
How are you today? (past 24 hours)	None	A little	Quite a lot	Extreme
Pain or discomfort	☒	☐	☐	☐
Feeling low or worried	☒	☐	☐	☐
Limited in what I can do	☒	☐	☐	☐
Require help from others	☒	☐	☐	☐

Q3. Write a program to create a GUI App to check login name and password from database and attempts should not be more than 3 times.

SET-3

Q1. Write a program to create a following GUI application using database connectivity.

First Name	Last Name
Course	Subject
Year	Age
Gender	Birthday
Contact	Email

Submit

Add New

View Details

Q2. Write a program to create a following GUI application using Swing components.

Sales Registration

Bill Number: 1

Sales Date: 09-04-2021

Product Name: Keyboard

Sales Qty: 5

Customer: Peter

Save

Q3. What does `Class.forName()` method do? Which one will you use `Statement` or `PreparedStatement`? Or Which one to use when (`Statement/PreparedStatement`)? Compare `PreparedStatement` vs `Statement`.

SET-4

Q1. What are available drivers in JDBC? Write a program to combine data from more than one table in Java.

Q2. Write a program to create a following GUI application using Swing components.

The screenshot shows a Java Swing window with a light gray background and a blue title bar. The window contains the following components:

- Name Section:** Four text input fields labeled "First Name:", "Last Name:", "Title:", and "Nickname:". Below them is a "Format:" dropdown menu currently showing "Item 1". A list box below the dropdown contains "Item 1", "Item 2", "Item 3", and "Item 4".
- E-mail Section:** An "E-mail Address:" text input field. To its right are four buttons: "Add", "Edit", "Remove", and "As Default". Below the input field is a list box containing "Item 1", "Item 2", "Item 3", "Item 4", and "Item 5".
- Mail Format Section:** Three radio buttons labeled "HTML", "Plain Text", and "Custom". The "Custom" radio button is selected.
- Buttons:** "OK" and "Cancel" buttons at the bottom right of the window.

Q3. Write a program to create a following GUI application using database connectivity.

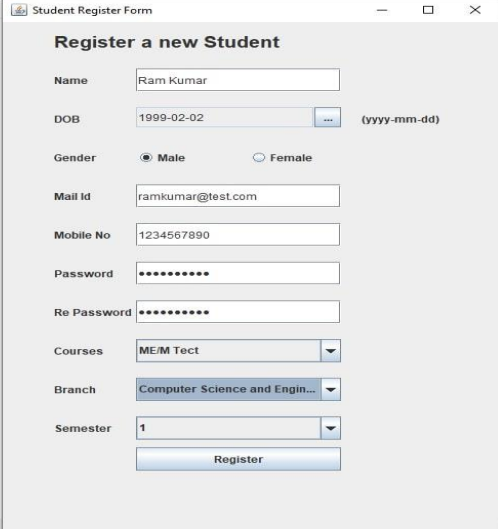

The screenshot shows a Java Swing window titled "Database Application Example" with a blue title bar. The window contains the following components:

- Table:** A table with 5 columns: "Make", "Model", "Price", "Body Style", and "Color". The data rows are:

Make	Model	Price	Body Style	Color
Acura	NSX	47075	coupe	yellow
Audi	A8	63890	sedan	black
BMW	M-Series	106900	coupe	red
Buick	Luxure	81500	sedan	black
- Input Fields:** Below the table, there are three text input fields labeled "Make", "Model", and "Price". The "Make" field contains "Audi", the "Model" field contains "A8", and the "Price" field contains "63890".
- Buttons:** Four buttons at the bottom: "New", "Delete", "Refresh", and "Save".

SET-5

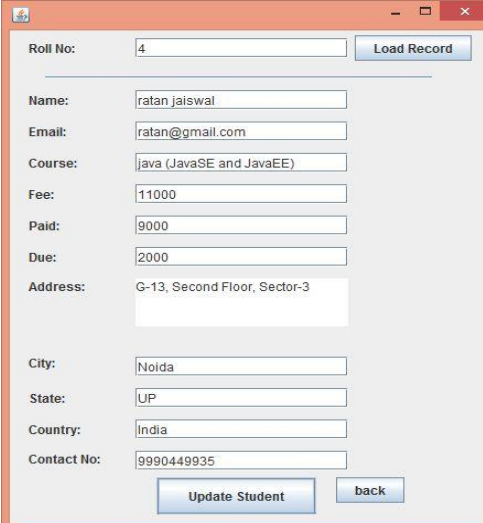

Q1. Write a program to create a following GUI application using Swing components.

The screenshot shows a Java Swing window titled "Student Register Form". Inside, there's a section titled "Register a new Student". The form contains several input fields: "Name" (filled with "Ram Kumar"), "DOB" (filled with "1999-02-02" and a "(yyyy-mm-dd)" hint), "Gender" (radio buttons for "Male" and "Female", with "Male" selected), "Mail Id" (filled with "ramkumar@test.com"), "Mobile No" (filled with "1234567890"), "Password" (filled with "*****"), and "Re Password" (filled with "*****"). There are also two dropdown menus: "Courses" (filled with "ME/M Tect") and "Branch" (filled with "Computer Science and Engin..."). A "Semester" dropdown is filled with "1". At the bottom is a "Register" button.

Q2. What are sockets? How are sockets represented in the Java programming language?

Q3. Write a program to create a following GUI application using database connectivity.

The screenshot shows a Java Swing window with a red title bar. It contains a form for student records. At the top, there's a "Roll No:" label followed by a text field containing "4" and a "Load Record" button. Below this is a horizontal separator line. The form then lists various fields: "Name:" (filled with "ratan jaiswal"), "Email:" (filled with "ratan@gmail.com"), "Course:" (filled with "java (JavaSE and JavaEE)"), "Fee:" (filled with "11000"), "Paid:" (filled with "9000"), "Due:" (filled with "2000"), and "Address:" (filled with "G-13, Second Floor, Sector-3"). Below these are "City:" (filled with "Noida"), "State:" (filled with "UP"), "Country:" (filled with "India"), and "Contact No:" (filled with "9990449935"). At the bottom are two buttons: "Update Student" and "back".

SET-6

Q1. Write a program to create GUI App: Employee Registration page in which you have to take input like: Employee name, Password, Date of birth, Gender, Contact No, Address etc.

Q2. What is datagram? What are some key classes defined in the Java programming language to work with datagrams?

Q3. Write a program to create a following GUI application using database connectivity.

Id	First Name	Last Name
16	u2	u2
17	u3	u3
18	u4	u4
19	test	InTest
20	newwww	std0000
21	ln	ln
22	ln2	ln2
23	std1	stdin1

SET-7

Q1. Write a program to create a following GUI application using Swing components.

My Profile

User Details

Gmail Facebook Instagram LinkedIn

Q2. Write a java program that simulates a traffic light. The program lets the user select one of three lights: red, yellow, or green with radio buttons. On selecting a button, an appropriate message with “stop” or “ready” or “go” should appear above the buttons in a selected color. Initially there is no message shown.

Q3. Write a program to create a GUI App to check login name and password from database and attempts should not be more than 3 times.

SET-8

Q1. Write a program to create a following GUI application using Swing components.

The screenshot shows a Java Swing window with a light gray background and a blue title bar. The window contains the following components:

- Name Section:** Four text input fields labeled "First Name:", "Last Name:", "Title:", and "Nickname:". Below them is a "Format:" dropdown menu with a list showing "Item 1", "Item 2", "Item 3", and "Item 4".
- E-mail Section:** An "E-mail Address:" text input field followed by an "Add" button. Below this is a list box containing "Item 1", "Item 2", "Item 3", "Item 4", and "Item 5". To the right of the list box are four buttons: "Edit", "Remove", and "As Default".
- Mail Format Section:** Three radio buttons labeled "HTML", "Plain Text", and "Custom", with "Custom" being the selected option.
- Bottom:** "OK" and "Cancel" buttons.

Q2. Write a program to create a following GUI application using database connectivity.

The screenshot shows a Java Swing window titled "Database Application Example". The window contains a table with the following data:

Make	Model	Price	Body Style	Color
Acura	NSX	47075	coupe	yellow
Audi	A8	63890	sedan	black
BMW	M-Series	108900	coupe	red
Buick	Lucerne	34599	sedan	black

Below the table are three text input fields labeled "Make", "Model", and "Price", with the values "Audi", "A8", and "63890" respectively. At the bottom are four buttons: "New", "Delete", "Refresh", and "Save".

Q3. What does `Class.forName()` method do? Which one will you use `Statement` or `PreparedStatement`? Or Which one to use when (`Statement/PreparedStatement`)? Compare `PreparedStatement` vs `Statement`.

SET-9

Q1. What are available drivers in JDBC? Write a program to combine data from more than one table in Java.

Q2. Write a program to create a following GUI application using Swing components.

The screenshot shows a Java Swing window titled "Student Register Form". Inside the window is a form titled "Register a new Student". The form contains the following fields and controls:

- Name:** A text input field containing "Ram Kumar".
- DOB:** A date input field containing "1999-02-02" with a calendar icon and a placeholder "(yyyy-mm-dd)".
- Gender:** Two radio buttons labeled "Male" (selected) and "Female".
- Mail Id:** A text input field containing "ramkumar@test.com".
- Mobile No:** A text input field containing "1234567890".
- Password:** A password input field with masked characters "*****".
- Re Password:** A password input field with masked characters "*****".
- Courses:** A dropdown menu showing "ME/M Tect".
- Branch:** A dropdown menu showing "Computer Science and Engin...".
- Semester:** A dropdown menu showing "1".
- Register:** A button at the bottom of the form.

Q3. Write a program to create a following GUI application using database connectivity.

The screenshot shows a GUI application with a blue background and a light gray sidebar. The main area contains labels and input fields for student information:

- First Name:** Input field
- Last Name:** Input field
- Course:** Input field
- Subject:** Input field
- Year:** Input field
- Age:** Input field
- Gender:** Input field
- Birthday:** Input field
- Contact:** Input field
- Email:** Input field
- Submit:** A button at the bottom of the form.

The sidebar on the right contains two buttons: "Add New" and "View Details", and a large empty rectangular area below them.

List of Students:

Sr. No.	Reg. No.	Name	Roll No.	SET No.
1	12111790	Shivam Kumar Choudhury	RD2110A02	SET-1
2	12111810	Satyam	RD2110A03	SET-2
3	12112542	Kanav Jasrotia	RD2110A04	SET-3
4	12112743	Himanshi Gupta	RD2110A05	SET-4
5	12113075	Ankit Kumar Mishra	RD2110A07	SET-5
6	12113094	Ankit Kumar Soni	RD2110A08	SET-6
7	12110164	Vishal Ojha	RD2110A10	SET-7
8	12110187	Renbithung M Ngullie	RD2110A11	SET-8
9	12110286	Himansu Kumar Das	RD2110A12	SET-9
